

Cottie Petrie-Norris

CALIFORNIA STATE ASSEMBLYWOMAN

2023 A Year in Review

Costa Mesa

Irvine

Tustin

At Your Service

Dear Neighbors,

As we enter a new year, I take this opportunity to both express my gratitude for continuing to serve Orange County in the State Capitol and to reflect on the challenges and achievements of the past year.

As I continue my third term in the legislature, I am hopeful for the many things we can accomplish together as a community and reflect proudly on what we've done so far. Economic development, climate resilience, and public safety continue to be my top priorities for the year ahead.

None of this would be possible without the ongoing support of local organizations and community members like you. I look forward to serving you in 2024.

From my family to yours, best wishes for a safe, healthy and very happy new year!

Sincerely,

In the Capitol

In 2023, I authored legislation designed to protect our environment, lower the cost of prescription drugs, and combat the deadly fentanyl crisis. I am grateful for the opportunity to work on meaningful legislation that will positively impact our community, including:

AB 508

Protects our environment by giving law enforcement new tools to hold corporate polluters accountable

AB 1027

Helps our law enforcement partners as they work to bring those trafficking illegal drugs like fentanyl to justice

Additional Legislative Highlights

- Helped prioritize and achieve increased funding for childcare services in California.
- Helped negotiate the passage of SB 326 to update California's Mental Health Services Act and modernize our approach to mental health and substance abuse treatment.
- Continued to prioritize reproductive health and fought for more money to support access to reproductive health services.
- Appointed Chair of the Assembly Utilities and Energy Committee.

By the Numbers

18 Bills introduced

32 Bills co-authored

5,337 Constituent responses

970 Certificates distributed

30 Events hosted

Pounds of fresh produce harvested at our Harvest Solutions Farm Volunteer Events

12,500

Tons of household waste, e-waste, and shredded papers collected at our Dump Days

305

Pounds of debris and garbage removed during our River Channel Cleanups

11,300

Community Wins

Prioritizing the needs of my constituents and community partners continues to be my focus. I am proud to have secured funding for projects that will improve public safety, expand access to mental health services, and ensure area residents and employees have access to quality parks and recreation opportunities.

\$2,000,000 to the City of Irvine to establish a Real Time Crime Center within the Irvine Police Department

\$750,000 to the City of Tustin to refurbish park amenities and improve park user experience for area residents and employees

\$750,000 to the City of Costa Mesa to establish a citywide mobile mental health response program for outpatient or crisis intervention services

...That's a wrap!
